ORBRY TILE BACKER BOARD WASHERS

Orbry have refreshed their range of tile backer board washers and are now offering 3 different material options; plastic, galvanised steel and stainless steel in packs of 50 or 500. These washers are designed to be used with Orbry stainless steel screws to mechanically fix tile backer boards to stud walls and wooden floors.

Orbry washers are resistant to screw pull through and their ultra-thin profile helps to prevent lipping. The stainless steel and plastic washers are perfect for wet rooms and showers, while the galvanised one's are suitable for use in dry areas.

NORCROS 4 INTO 1 GROUT NOW AVAILABLE IN 10KG

We are now stocking Norcros 4 Into 1 Grout in 10kg bags in four best selling colours. All 16 colours are available at The Tile Source in 5kg bags, and now you can stock up on Arctic White, Slate Grey, Silver Grey and Steel Grey in larger bags.

BAL RAPID MAT: UNCOUPLING MATTING FOR FAST TRACK TILING ONTO PROBLEMATIC FLOORS

BAL Rapid-Mat is an innovative fast-track uncoupling system designed to accommodate for tile installations on floors with limited movement. It is lightweight and easy to install, with minimal height build-up - only 1mm thickness. BAL Rapid-Mat is suitable for internal use in domestic and commercial areas in medium/heavy duty applications. It is particularly recommended for heated floors and timber floors.

Traditional decoupling mats are thick, heavy and unnecessarily complicated. The typical mat is up to 4mm thick, with a lower layer of fleece, bonded by a mesh to a polyethylene upper layer. The upper side is covered with a grid of cavities or dimples. BAL Rapid-Mat is engineered with a structured inner mesh sandwiched between two identical outer layers, enabling substrate and tiling to move independently of each other.

Try BAL Rapid-Mat for just £6.60 per m² this month at The Tile Source.
